

+ WingDoors Volkswagen Cabrio

+ WingDoors Ford Focus

+ WingDoors Mark I & Mark II Kits

these Lambo door kits are available for all cars and models ranging from a Civic to a Ferrari."

Another difference is design-dictated. Notes Chase, "The bolt-on kits uses two very short high-pressure lift shocks that are nitrogen filled. These shocks have 1.5 inches of stroke (travel). The weld-on style kits use two low-pressure long shocks on each side that have 8 inches of stroke."

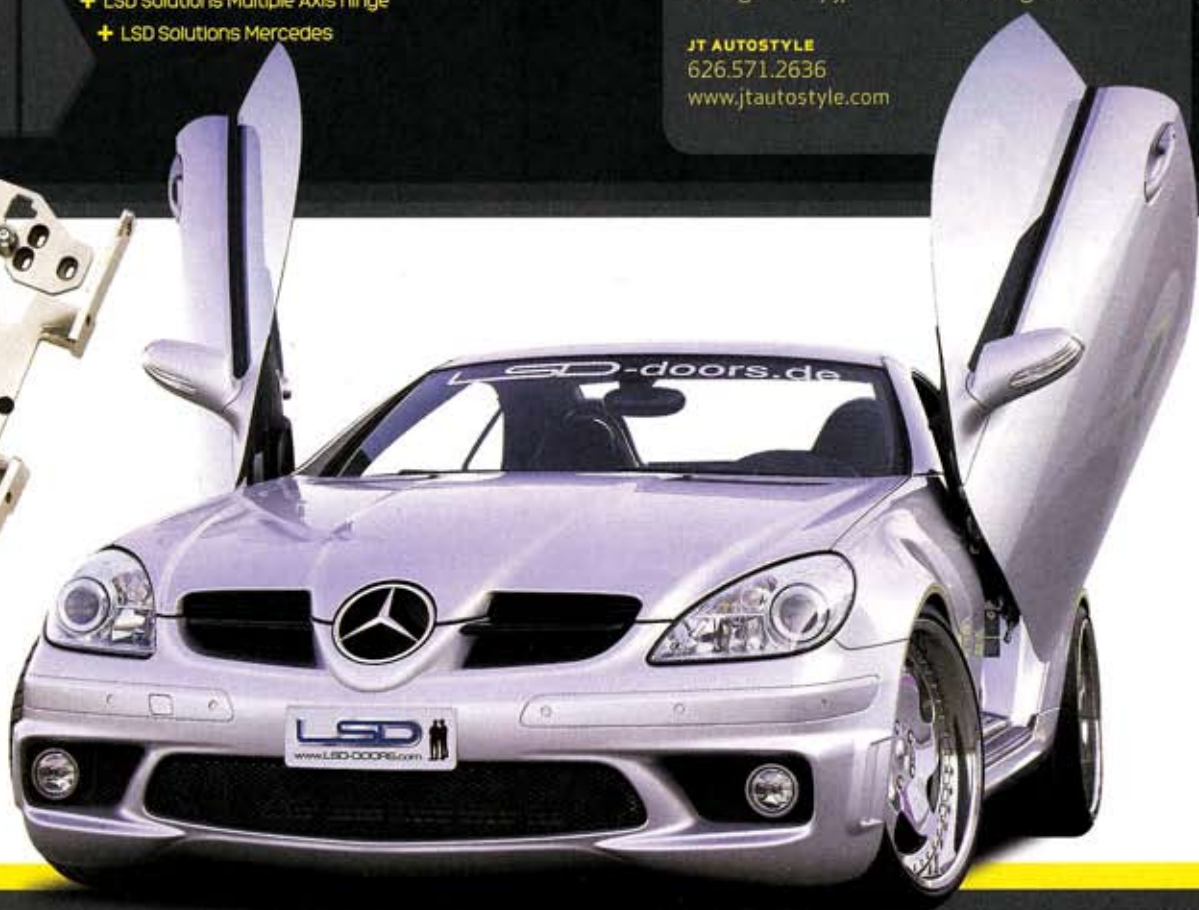

Lambo-style doors are a major mod, so you'll have to pay to play. Retail prices from companies mentioned range from \$699 to more than \$5,000, depending on whose kit it is and the vehicle application. However, like any other modification of this type, you should always consider factors such as strength, safety, ease of operation, after-sale service and warranty before price. ☘
